sme of the native captains, who make sad blunders sith foreign names, I had directed the friend who forsith loreign letters to put Lunakanawai upon them. learningly he encloses a letter from Germany in a fresh envelope and sends it me; I copy the address ver-balls and literatim—Dr. John Rae, M. A., Luna&na-lalls and literatim—Br. John Rae, M. A., Luna&na-lalls, Mani, Sandwich Islands. You will observe lians, mad, observe are two slight mistakes; and a is wanting in one there are there is an i instead of an a in another. No orson, however, one would think, could possibly misor the words, for the writing is very distinct and leg-At all events, if there had only been John Rae, Man, on it, it ought to have been sent to the Postmaster Man, on it, who would have forwarded it to me. It gs lever forwarded; but after lying apparently for Jan 19—Haw sch Molokai, fm Molokai, with 3 horses, 3 hogs, 12 gas never for the office was at last published among a dead letters, and it was only from a friend of mine micing my name there and on the letter being producfinding that it was for me, that I at length quite reed, mount in a submit that such conduct marks reckless negligence on the part of the Post Office auwities as to letters, &c., for foreign residents on these ands, which they may justly complain of as a heavy I may add that I have thought it right to forward

envelope to the Minister of the Interior. I am your very obedient servant, JOHN RAE,

District Justice of Hana.

TO THE EDITOR OF THE POLYNESIAN.

Str :- Living as we do in a country where thousands testile are slaughtered annually for their hides alone. should expect that beef as an article of food should becheap. Now, the beef sold in the markets here is not only cheap, but it is also of excellent quality and on be furnished in any quantity. Viewing these facts. hes it not seem surprising that large quantities of salt sh should be imported annually from foreign countries. lowever, if people prefer an indifferent and unwholeone article of food to a better and cheaper article, of purse they have an undoubted right to please themles. But I must say that I am astonished to see that large sums are every year expended by the Govenment in the purchase of salt fish for consumption by the prisoners in the jail of Honolulu, when a letter, wholsomer and cheaper article of dict, the probur of the country, can be procured here. The grazier tax on his herd as chattel property, on the land which his herd is pastured as real estate, and a tax in the shape of duty on the saddlery, the iron work and the various imported articles which he is compelled to se in his business. He pays poll tax, road tax and school tax, for himself and for all the people whom he employs. He pays tax on every horse and mule which is used to drive his cattle to market. Surely, it would be only fair, only an act of simple justice, that, if poschie, a portion of the taxes which he thus pays should le laid out again in purchasing from him such articles is the Government requires, if he can furnish them as god and as cheap as the fishermen in Oregon or elsewhere. Let me not be misunderstood. I do not ask far protection in any shape or form. I only ask that the revenue raised in the country should be expended among those who contribute to it, if they can furnish the article required of as good quality and at as low a price as it can be procured elsewhere. If they can do so, I think they have just grounds of complaint, if they see the money raised in the country sent out of it to the water, at a distance of 19 % statute, or 17 nautical miles. use who contribute nothing to the revenue, while their produce lies unsaleable on their hands.

I have heard it stated that it is much less trouble to serve out rations of raw salt fish than to have beef cooked, and also that the prisoners prefer the fish. Now I suppose that the parties who have charge of the prisoners are paid for their services, and that they would not be so unreasonable as to expect that they should have salaries, and that they should have no trouble, and in the second place, I question whether a man who finds his way into the prison gang has a right to select his

In conclusion, I have only to offer my opinion, that f the Government would advertise (as is done elsewhere) for tenders for so many pounds of beef, to be delivered daily at the prison for a quarter, or half year, or year, that it would make a saving in its expenses, that the parties to be fed would receive a more wholesome article of food, and that the unfortunate graziers, who are far worse off than the people in the prison, would receive more justice than they do at present.

## COMMERCIAL.

FRIDAY, JANUARY 25, 1861. During the past week there has been a continued succession of strong Northeasterly winds, with frequent rain squalls. This had weather has of course had a great effect upon the retail trade, and kept the little business that would have otherwise been doing nearly at a stand still.

The Comet and Zoe are both up for San Francisco. The Zoe will sail early next week, if the weather will permit her to take a cargo, and the Comet will sail about the 1st prox.

The Russian ships Nicolai I and Grefoe-Berg both sailed on Sunday, 20th inst., the former for Cronstadt and the latter for

Bremen, with a cargo of oil, bone and some dry freight. The bark Early Bird, Capt. Cook, arrived on 20th inst., eleven days from San Prancisco. She brought a small quantity of freight for this port, which having been landed, she sailed on the

the of the 21st for Hongkong, without having come inside the The clipper ship Fuir Wind, Capt. Crowell, arrived on the

This, something less than 9 days from San Francisco; she is un- Barley, sks der charter to the Am. Guano Co., and will sail for Baker's Island in a few days.

The clipper ship Northeester, Capt. Almy, arrived on the 22d inst., 10 days from San Francisco. She had on board a large number of Chinese passengers, and fouched here for water and fresh supplies. She sailed for Hongkong this morning.

We learn that two shares (\$1000 each) in the Haiku Sugar Cohave changed hands at a fraction better than par. The plantation is said to be looking finely, and the prospect is good for a large crop. They expect to begin to grind about next Septem-

The steamer Kilauen sailed on Thursday for Hilo and intermediate ports. She took some ten or twelve cabin and over 260 deck passengers and a full freight. Since her last trip there have been some alterations made in the screw and as she steamed out of the harbor she appeared to go at a much better rate than heretofore. Her mair ast has also been stepped further forward, which it is thought will make her work better when un-

Sax Prancisco News .- By the Fair Wind we are in receipt of San Francisco files to 12th inst. The sch Alert, Capt. Brooks, had arrived on 9th last., having made the passage in 12 days. The Frances Palmer would doubtless be sold, and the Yankee

would be the next departure for this port. We notice but few changes in market quotations, since the nexy by the Comet which we published last week: Puln, 75 bales Flour, cks. ex Alert had been sold at 11c cash, and 50 bales from store at 12 cts., thus showing a slight advance in this article.

FLOUR-500 sacks Golden Age extra sold at \$6 for 200 Do , Berent brands quoted at from \$4 50@6 25.

SUGAR - The Mercantile Gazette of the 10th, in the annual review, says that the market is much overstocked with raw sufar, there being a supply for over seven months to come. The market for all descriptions of raw has been invariably unprofita-

bly approfitable throughout the past year. East, the market had been broken by offering 1000 Bs (A) at mution, which realized 11%@12%c.

For Hongkons—per Harburg, Jan 1.

Flour, bags (101% bbls)...... For some time past crushed sugar has been held by speculators

MOLASSES-The market was entirely bare, there being none of either New Orleans or Sandwich Islands in fist hands.

Rules of interest continue to rule high, and money could not be obtained except on the very best security.

Basiness is reported as very dult, and trade much depressed by the news from the East of anticipated financial difficulties.

EXCHANGE—Whalers' bills are held at par. Private drafts on the Fast to a small on the East have been sold at par for 60 day drafts to a small premig a for shorter sight. On San Francisco, par to 1 Sec prem.

MEMORANDA.

NEW YORK, Dec. 10-Arr, Am cl sh Buena Vista, from Baker's

Notice to Mariners.

ADMIRALTY HEAD, WHIDBEY'S ISLAND, WASHINGTON TERRITORY Information has been received at this office from Lieut. N. Mitchler, Corps of Topographical Engineers, of the completion of the Light House at Admiralty Head, on Whidbey's Island, Washington Territory.

The structure consists of a dwelling with a tower rising through the roof at one end, both painted white; the tower is surmount-ed by an iron lantern, painted red.

The illuminating apparatus is catadioptric of the fourth order if the system of Fresnel, and will show a fixed white light—the are of the horizon to be illuminated is 270 degrees. The following data are furnished:

Latitude, 48 deg, 9 min, 21 sec, 6 North. Longitude, 122 deg, 40 min, 8 sec West, Or in Time, 8 h, 10 m, 40 5 s. From Point Wilson it bears NE by E (magnetic), distant 3 1/2

From Marrowstone Point, N by W, & W (magnetic), distant From Point Partridge, SE by E, M E (magnetic), distant 5% From New Dungeness Light, E by N, 1/2 N (magnetic), distant

11% miles.

Admiralty Head commands the New Dungeness Light, but is shut out from Smith's (Blunt's) Island Light by Point Partridge. The magnetic variation was 21 deg, 40 min E, in August, 1856, with a yearly increase of 1 min, 4 sec.

The Light will be exhibited for the first time on the night of the 20th of January, 1861, and every night thereafter from sun-

By order of the Light House Board. WM. F. SMITH, Engineer Secretary, Treasury Department, Office Light House Board, Washington,

Capt. Crowell, of the clipper ship Firir Wind, obligingly furnishes the following memoranda of his trip and daily run on the passage from San Francisco to this port:

Discharged the pilot off San Francisco at 5 P M, Jan 13, sea time: had strong winds from ENE to NE the whole passage; made Diamond Head at 9 h, 30 m, A M, Jan 21st; anchored at 11 A M, thus making the short passage of 8 days and 16% hours to Diamond Head, or 8 days and 18 hours to the anchorage.

he following	is the	daily distance run:	
Jan. 13, 19	hours.	209	mile
14, 24	54		44
15, 24	6.6	215	10
16, 24	45		44
16, 24	66	994	44
18, 24			66
19, 24	11		44
20, 24	:64		2.5
21, 21	36 44		41
9/	STA be	or 8 days 16 h 20 m 9 104	milio

The number of miles run is only a trifle more than the true listance between the Heads of San Francisco and Diamond Pt, thus showing the direct course of the ship on her passage, which is, we believe, the shortest now on record.

The cl sh Nor' Wester, Capt Almy, discharged her pilot at 4 P M on the 13th, sea time, an hour previous to that of the Fair Wind, and reports the same winds and weather on her passage as the latter ship. Sighted Hawali at 8 A M on the 21st; hove too off Molokal same night, with strong gales, squalls and thick weather, and was telegraphed in sight at 8 A M of the 22d, thus making the passage from the heads of San Francisco till she was telegraphed here in 9 days and 16 hours. The sch Odd Fellowt Capt, Candage, was only 13 hours on her down trip to Kauni, and 20 hours on her up trip here, which

is considered very short by the knowing on es on that route. PASSENGERS

From San Francisco-per Early Brid, Jan 20 -Mr Chas Sand For Hongkong-per Nor'wester, Jan 25-Ah Hing, Chinaman. For Bremen-per Grefoe Berg, Jan 20-G Albrecht, wife and
